

MUHAMMAD SAAD NAZIR

BSCS Student | ML / DL | AI Full-Stack Development

github.com/saad-nazir-0289 | linkedin.com/in/saad-nazir0289 | Pakistan | L1s23bscs0289@ucp.edu.pk | Saadnazir099@gmail.com | +92 325 4278463

Deeply passionate about Artificial Intelligence, Machine Learning, and Deep Learning, with a strong focus on building and deploying intelligent systems that generate real value. Eager to explore the latest in AI innovation tools, large language models, and automation workflows. Equally driven by the commercial side of technology and the drive to build things that are both cutting edge and professionally profitable.

EDUCATION

University of Central Punjab (UCP)

B.Sc. Computer Science | 7th Semester | CGPA: 3.91 / 4.00

Spring 2023 – Present

ACADEMIC WORK

Final Year Project - DL Spatiotemporal Image Fusion

2025 – Present

University of Central Punjab

- Building a deep learning model trained on multispectral satellite imagery to fuse coarse and fine-resolution images (DL-STF framework) for NDVI maps generation used in agriculture.
- Reviewed and compared CNN, GAN, STARFM, and ESTARFM-based fusion methods; benchmarked against state-of-the-art baselines.

Conference Paper

2025

- A Comparative and Preliminary Quantitative Evaluation of Explainable AI Methods (Grad-CAM, Grad-CAM++, LIME, SHAP) for Pneumonia Detection in Chest X-rays Using Public Datasets.

Grant Acquisition

2026

- authored a competitive grant application with peers and secured PKR 675,000 in funding for a research initiative.

EXPERIENCE

Hackathon Director - IEEE CS UCP Chapter

Mar 2026 – Present

- Leading end-to-end planning and execution of hackathons for the IEEE Computer Society chapter at UCP.
- Coordinating with sponsors, judges, and student teams; managing logistics, timelines, and promotion.

Marketing Director - Hult Prize On-Campus UCP

2026

- Led marketing and outreach strategy for the Hult Prize on-campus round at UCP.
- Coordinated campaigns that contributed to the team's 1st place finish in the on-campus competition.

Teaching Assistant - Object-Oriented Programming (OOP)

Fall 2024

University of Central Punjab

- Supported lab sessions, clarified core OOP concepts, and provided feedback on student assignments and projects.

PROJECTS

Worked on 20+ Projects that include full stack applications, ML and DL based models. Few mentions are:

Taakra Portal

- Full-stack task/project management portal built on the MERN stack with role-based access control.

Inbox Opportunity Finder

- AI-powered tool that scans email inboxes to surface and prioritize actionable opportunities using NLP and workflow automation.

Medical Triage System

- AI-assisted patient triage application integrating a clinical decision support model with a responsive front-end.

COMPETITIONS & ACHIEVEMENTS

- **1st Place** AI Hackathon - Enablers AI Hackathon 2025
- **1st Place** AI Innovation Arena - Techathon 2.0
- **1st Place** Hult Prize On-Campus Round - UCP
- **1st Place** AI Hackathon Category - Forman Code Fest (FCCU)
- **2nd Place** Web Hackathon - Techathon 2.0
- **2nd Place** Design Experience (DEX) - Innovation & Entrepreneurship Club, UCP
- **3rd Place** Harvard-Style Business Case Study Olympiad - BEC, UCP

CERTIFICATIONS

- Claude Code in Action - Anthropic
- Claude 101 - Anthropic
- AI Fluency for Students - Anthropic
- AI Fluency: AI Capabilities and Limitations - Anthropic
- AI Fluency: Framework & Foundations - Anthropic
- Introduction to Model Context Protocol - Anthropic
- Model Context Protocol: Advanced Topics - Anthropic
- Introduction to Agent Skills - Anthropic
- Introduction to Subagents - Anthropic
- Machine Learning using Python - Simplilearn
- Full Stack Development 101 - Simplilearn
- Flutter - Simplilearn
- Critical Thinking in the AI Era - HP LIFE
- Effective Leadership - HP LIFE
- Web Development - ACM UCP Chapter
- Fundamentals of Digital Marketing - Google Digital Academy / Skillsshop

SKILLS & TECHNOLOGIES

Programming: Python, C++, JavaScript

AI / ML: PyTorch, deep learning, computer vision, spatiotemporal fusion, XAI (Grad-CAM, LIME, SHAP)

AI Tools: Claude Code, n8n, ElevenLabs Agents, LLM integration, AI workflow automation

Web Dev: MERN Stack (MongoDB, Express, React, Node.js), Flutter, REST APIs

Design: Canva

Tools: Git / GitHub, VS Code, Jupyter, API & JSON-RPC

Languages: English (fluent), Urdu (native), Punjabi (native)
